## CIRCULAR - Competition – Radiography Day

Dear Parent,

**World Radiography Day** marks the anniversary of the discovery of X-rays in 1895. The purpose of this day is to raise public awareness of radiographic imaging and therapy, which play a crucial role in the diagnosis and the treatment of patients and, most importantly, ensuring radiation is kept to the minimum required, hence improving the quality of patient care. The day is celebrated worldwide by various national radiographers' associations and societies, including Nigeria's Association of Radiographers of Nigeria, United Kingdom's Society of Radiographers (SoR), among others. The International Society of Radiographers and Radiological Technologists have celebrated 8<sup>th</sup> November as World Radiography Day since 2007.

To create cognizance on the same among students, the school will be conducting a competition on **Wednesday, 17<sup>th</sup> November 2021** on the above topic during class hours.

### Instructions: -

- 1) Students have to speak about the Discovery, Importance, Advantages & Disadvantages of radiography for 3 minutes.
- 2 Attendance is compulsory.

**JUDGES DECISION WILL BE FINAL**

**ALL THE BEST.....**

**Thank You**

**Siddhartha Public School, R T Nagar**
